

Insect Control

Technical Information

H 225mm

W 90mm

D 85mm

Sanokil: 02 9868 4644

Sanokil prides itself on being sensitive to the environment whilst effectively removing the health risks associated with insect control. Public attention has been focused recently on insecticides.

Sanokil uses the natural insecticide pyrethrum in the Automatic Aerosol Dispenser. Spray intervals can be programmed simply by setting the time control switch to your choice depending on the desired results.

Sanokil's Insect Control Unit can be used in shopping centre, restaurants, clubs and anywhere that insects are a problem.

- Safe to spray anywhere
- Regular professional servicing
- Suitable for restaurants, clubs, hospitals, plus more
- Programmed to set at regular intervals
- Eradicates nasty insecticides
