H 92mm

Sanokil: 02 9868 4644

Sanokil Toilet Blues keep toilet bowls clean and fresh smelling. They reduce cleaning requirements and will do away with additional disinfectants or acid based cleaners.

Simply place the Toilet Sanitiser inside the water closet and say goodbye to dirty, bad smelling toilets.

Sanokil Toilet Blues work automatically with every flush, releasing a powerful biological cleaning formula that breaks down organic waste. By clearing organic waste out of toilet systems, the Toilet Blues eliminate the source of stains, encrustations and malodours.

Sanokil Toilet Sanitisers are safe for all septic tanks and plumbing.

- Keeps toilet bowls clean and fresh smelling
